

## Isolation and Quarantine Timeline

Household members cannot attend work, daycare, or school **during the other household member's isolation** (10 days) or for the 14 days after the isolation period (quarantine). If the quarantined household member **DOES** develop symptoms, they cannot return until 10 days since first symptoms appeared **AND** 24 hours being fever-free **AND** other symptoms have improved. Isolation

Everyone should assume exposure to COVID-19 and monitor for symptoms. Check your temperature and watch for symptoms. Call your doctor if symptoms develop. **QUARANTINE** keeps someone who was in close contact with someone who has COVID-19 away from others in case they become infected. People should stay home and monitor for symptoms. **ISOLATION** keeps someone who is sick or tested positive for COVID-19 from people who are not infected, even in their own home. In the home, anyone sick or infected should separate themselves from others by staying in a specific area and using a separate bathroom (if available). For more information on quarantine and isolation, visit <https://www.cdc.gov/coronavirus/2019-ncov/if-you-are-sick/quarantine-isolation.html>.
